LOCATION OF INCIDENT

Toronto ON Canada

Factual Summary

Canada is the source of these international espionage crimes

Canada has created race preferential groups e.g. (Africans and select Black immigrants in particular) to which it gives special privileges. These same Africans-Blacks use these special privileges to do Canada's dirty work to protect the white power brokers higher up the Canada food chain from getting their hands dirty. The vast majority of these Africans-Blacks have literacy skill issues, cannot speak either of the national languages, possess little to no life skills yet given preferential hiring-housing-economic treatment b/c they can do what Canada needs them to do -- such as to keep the hands clean of the Canadian white power brokers.

All of this is carried out via criminal camera monitoring and cell phones. See attached. And all of this is political party driven (liberals, conservatives) which might explain why no one to date has been indicted or charged locally. And as these are systemic international crimes e.g. government intelligence agency corruption, criminal abuse of power, extortion, blackmail, money crimes, and so on there is grounds for extradition. This court saw fit to indict former president Duterte of the Philippines over a billion or so allegedly moved illegally. Well let's be clear, what is going on in Canada involves far more than a billion in international embezzlement of monies, and the political party organized crime syndications that makes it all work. What does the Canada prime minister Mark Carney say about all of this? How about Canada DOJ Attorney General Sean Fraser? Where are the indictments? Where are the extradition orders? Canada is a problem and the source of all of these issues which it created all on its own. Here are your political party organized crime colors for this report: purple+black, red+white, orange+white (preacher man crook motherfucker from Florida -- Joel Olsteen), blue+black (usa fbi in canada gets more shit done in canada [albeit illegally] than does Canadian police).
